CENTRE FOR CIVILISATIONAL DIALOGUE | PUSAT DIALOG PERADABAN

Excerpts from the Officiating Speech by YBhg. Professor Dato' Ir. Dr. Mohd. Hamdi Abd. Shukor, Vice-Chancellor of Universiti Malaya

(Commemorating 25 Years Establishment of the Universiti Malaya Centre for Civilisational Dialogue (UMCCD))

“The Preamble of the UNESCO’s Charter states “Since wars begin in the minds of men, it is in the minds of men that the defences of peace must be constructed”.

Promoting international peace through a mosaic of intercultural dialogue and inter-faith exchange of ideas is central to any public or private educational institution and cultural and religious organisation. Since its establishment on the 13th November 1996 until now, we have had the opportunity to see the development of civilisational dialogue at home and abroad and to appreciate how dialogue actually play an important role in our daily lives, and in our relationships, through the efforts of the UMCCD.

COMMEMORATING 25 YEARS OF THE ESTABLISHMENT OF UNIVERSITI MALAYA CENTRE FOR CIVILISATIONAL DIALOGUE (UMCCD)

One of the mandates of the Universiti Malaya upon its establishment was in fact to enhance inter-cultural dialogue amongst its members as well as the wider society. As one of the premier universities in Malaysia, Universiti Malaya has played that role through the UMCCD at least for the last 25 years. The first inter-civilisational dialogue held was between Islam, Japan and the West via an international conference held by the UMCCD in 1996.

The scope of Dialogue of Civilizations (DoC) ranges from the political, military, security fields as well as the social and economic arenas. DoC also delves into the realms of culture, science and values, the environment, human rights as well as other global issues. When conflicts arise, DoC serves to create a spirit of cooperation, instead of confrontation.

DoC stresses the global resurgence of respect for cultural diversity in world politics and it legitimises the quest for cultural authenticity as an important contemporary need as it affects the relationships between the Western and non-Western world as well as between the ethnicities within different nations. DoC in fact is the best method for managing diversity of culture, faith and ideologies. Our cultural and religious diversities should be a cause for celebration rather than being used as a reason for conflict. This can be achieved not by erasing differences but by creating a unity via shared values through mutual recognition and respect for the dignity of every group and by encouraging the possibilities for amicable and harmonious interactions.

*All forms of extremism should be avoided, and fear, hatred, and bigotry should be avoided. Generally, we must move beyond tolerance towards an appreciation of the positive values of others in order to keep harmonious relationship with them, in line with the concept of "Keluarga Malaysia" espoused by our Prime Minister. To keep the good momentum going, likewise in UM, we embrace our core values of **Passion, Oneness, Integrity, Sincerity and Empathy (POISE)** and I believe the values of POISE are also applicable during dialogues.*

- Through **PASSION** we celebrate the importance of the values of civilisations while respecting differences that exist so that we can give a positive impact to the society, nation and to the global community.
- Through **ONENESS**, we unite as Malaysian and global citizens via shared values.
- Though **INTEGRITY**, DoC spreads the values of honesty, accountability, and trustworthiness.
- **SINCERITY** is the most important element of DoC because it allows for trust amongst us though we may have different viewpoints than others.
- The value of **EMPATHY** or the ability to feel what others are experiencing from within is also critical for dialogue.

In line with the principle that DoC which is a much-needed mechanism for discoursing issues that arose from the inevitable encounter between nations, ethnic groups, faith systems, ideologies, worldviews and cultures in the 1990's, it is our honour to welcome YBhg. Emeritus Prof. Datuk Dr. Osman Bakar who was the founding father of UMCCD 25 years ago during his tenure as the Deputy Vice-Chancellor (Academic & International) of Universiti Malaya to our special event today. I would like to record our utmost gratitude to Emeritus Prof. Datuk Dr. Osman Bakar who is also currently holding Al-Ghazali Chair of Epistemology and Civilizational Studies and Renewal at ISTAC-International Islamic University Malaysia who is also Emeritus Professor of Philosophy of Science at the Universiti Malaya to this special event today where he will shortly share his thoughts on DoC and UMCCD in the future.

I also take this opportunity to welcome YBhg. Prof. Datuk Dr. Azizan to the university as the current director of UMCCD starting 1st November 2021. Prof. Datuk. Dr. Azizan was the 3rd director for UMCCD and she has been actively promoting DoC both inside and outside the UM. I believe under her current leadership, the Centre for Civilisational Dialogue (UMCCD) will move to new heights of DoC, in line with all the changes that are taking place around us locally and internationally.

Again, it is my pleasure to welcome all of you to this event commemorating 25 years of the establishment of UMCCD and I look forward to even more achievements of the Centre in the future. ”

INTERNATIONAL CONFERENCE ON CIVILISATIONAL DIALOGUE 2022 (ICONCIDI' 22)

THE FUTURE OF CIVILISATION: REIMAGINING SUSTAINABILITY

17 & 18 AUGUST 2022

Today no one can claim unfamiliarity with the many faceted issues of unsustainability. In the physical context the epoch that we live in today has indeed been labelled as the Anthropocene, which means that humans are changing the planet in ways that are irreversible and perhaps irrevocable knowingly and unknowingly.

Today, we also "stand at a very critical moment in Earth's history, a time when humanity must choose its future. As the world becomes increasingly interdependent and fragile, the future at once holds great peril and great promise. To move forward and sustain human civilization in the future, we must recognize that in the midst of a magnificent diversity of cultures and life forms we are one human family and one Earth community with a common destiny. We must join together to bring forth a sustainable global society founded on respect for nature, economic justice, and a culture of peace" (Preamble of the Earth Charter).

To this end, the UMCCD is taking the initiative to hold the 3rd International Conference on Civilisational Dialogue 2022 (ICONCIDI' 22) to provide a platform for the sharing of possible solutions for some issues currently besoghting humankind.
